# ADVISORY

The Acute Care Center (ACC) of the Ospital ng Makati in Bel-Air will be closed starting **March 25, 2012** to make way to the construction of a new Full-service Hospital that will cater to the healthcare needs of residents in the First District.

The ACC will limit admission of patients until **March 12** to facilitate transfer of patients to the base hospital in Pembo. **At 12 midnight on March 25,** the ACC will finally shut down its operations.

The construction of the new hospital in District 1 is scheduled to begin this April.

# FAIR AND SQUARE

The CHAMBER OF MINES OF THE PHILIPPINES is deeply concerned with recent government pronouncements that make it appear that the mining industry has not been paying the correct taxes as mandated by law.

**WE PAY BILLIONS IN TAXES, ROYALTIES AND FEES.** Official data from the BIR and MGB/DENR indicate that since 2007, two years after the challenge to the constitutionality of the Mining Act was resolved, **the tax collected from the mining industry every year has averaged over P10 billion. In 2010, the mining industry's total payments in terms of taxes, royalties, and fees was nearly P14 billion.**

**Government gets much more than just a 2% excise tax. The actual fiscal contribution of a mining company is not just the excise tax, but all other taxes and fees paid by the contractor as well,** i.e. corporate income tax, customs duties on importations, value-added tax, capital gains tax, DST, and withholding tax on its income and other transactions. Additional local business taxes and fees are paid directly to the LGUs where the mine is located. Mining companies operating in mineral reservations are also required to pay the government an additional royalty equivalent to 5% of the actual market value of the minerals produced, while those located in IP areas have to pay an additional 1% to 1.5% of the gross value of the minerals produced to the IPs.

**MORE THAN PAYING TAXES, WE BUILD THRIVING COMMUNITIES.** Large-scale mining companies contribute 1.5% of their total operating cost every year to fund Social Development and Management Plans for the benefit of their host communities. The fund is spent building and maintaining roads, schools, hospitals, community facilities, and livelihoods projects that otherwise should have been provided by the government. **In 2010, our member companies spent nearly P370 million for social development projects—an amount well beyond the requirement of the law.**

**WE GIVE GOVERNMENT ITS FAIR SHARE. Government takes its share from the gross proceeds of mineral sales, regardless of whether the company makes a net profit from its operations or not.** Government does not share in the cost of production (which eats up over 60% of gross income), and leaves all the costs and financial risks associated with mining to the contractor.

**With the current tax and royalty regime, government already takes a substantial portion of a contractor's net income before tax.** With this, the government is already getting its fair share in the profits from mining projects. The MPSA scheme actually self-adjusts to maintain the 50/50 split on net mining revenues as calculated using an operating mine. The country's fiscal regime does not leave the Philippine government at a disadvantage in comparison with other countries. Other mining-intensive countries such as Chile, Australia, Indonesia, and Vietnam, have lower or comparable tax rates than those currently imposed by the Philippine government.

To raise additional revenues from mining, it is being proposed that more minerals reservations be declared. However—

**NOT ALL AREAS CAN OR SHOULD BE DECLARED AS MINERAL RESERVATIONS.** While the President is empowered under the Mining Act to establish mineral reservations, the same law also suggests that such power may only be exercised "[w]hen there is a need to preserve strategic raw materials for industries critical to national development or certain minerals for scientific, cultural or ecological value". **Revenue generation is not, and cannot be, among the legal bases for exercising the power to declare mineral reservations.**

The proposal to impose an additional 5% royalty will strangle the mining industry that contributes heavily to the Philippine economy and affects hundreds of thousands of families dependent on mining. The proposed additional 5% royalty, which will be on top of the excise tax and other royalty payments imposed on mining companies, will be contrary to the President's policy of creating conditions conducive to the growth and competitiveness of private business.

Such game-changing policies will undermine investor confidence in the stability of government policies and will increase the perceptions of political risks in investing in the Philippines. Such policy would also impact on the country's standing as an investment destination.

**The mining industry holds so much potential to help the Philippines move forward, especially with robust metals prices worldwide.** Investors are ready to put their stake in the country and the government only needs to maintain regulatory certainty and ensure the proper implementation of current laws and fiscal regime.

The legitimate large-scale mining industry remains committed to contribute to the President's programs of encouraging investments, generating employment, reducing poverty, and improving the quality of life of our countrymen. We are more than willing to sit down with government to discuss more practical and doable options for reforms that are consistent with responsible mining and a sustainable development framework.

**Unfortunately, we are not being consulted enough on the policy issues that affect our destiny.**

# Doon Po Sa Amin

# Barobo National High School is three-time champion

For the third straight year, the Barobo National High School won the grand prize in the *Doon Po Sa Amin* (DPSA) Learning Challenge of Smart Communications, Inc. (Smart)

"Doon po sa amin, [illegible]" (In our town, the fish [illegible]) topped 177 entries in Smart's major online contest under the DPSA, a community service project launched in 2007 to encourage schools to use computer and internet technologies to contribute web-based information and educational materials about their respective communities.

The winning website highlights the degradation of the marine sanctuary in Barobo, Surigao del Sur in an effort to get concerned agencies to address the problem.

Barobo National High School shared the limelight with the grand prize winners of two more online contests during the 4th SMART Innovation and Excellence Awards at the SMX Convention Centre.

In the DPSA contest on video blogging, "Ano ang Kwento Mo?", the Naga City Science High School won for "Doon Po Sa Amin, ang maliit pinagmamalaki" (In our place, we brag about what's small), which calls for the protection and conservation of the endangered "tabios" or "Sinarapan", the world's smallest commercial and edible fish found in Lake Buhi in Buhi, Camarines Sur.

Its elementary counterpart, the Naga Central School 1, won the DPSA Quest, a search for the best blog site by elementary students. The public elementary school's "Tuyod Kan Hinanggan Ko, Gibon sa Basura Mi" (Trash-Laden Business, Our Wealth, Our Lifeline), takes a close look at how scavengers are able to make a living off the garbage of the Balatas dumpsite.

More details about the winners and their entries can be found at www.doonposaamin.ph

The 4th DPSA Learning Challenge champions with judges (from right) [illegible]

The Naga City Science High School won the grand prize for "Ano ang Kwento Mo?" for the second straight year with "Doon Po Sa Amin, ang maliit pinagmamalaki"

DPSA Quest Grand Prize Winner Naga Central School 1 depicts how scavengers are able to "harvest" garbage at the Balatas dumpsite in "Tuyod Kan Hinanggan Ko, Gibon sa Basura Mi."

# DESIGNED AROUND YOU

## VOLVO'S NEW APPROACH TO LUXURY.

THE PURPOSE OF OUR EXISTENCE, THE BACKBONE OF OUR WAYS, HAS ALWAYS BEEN TO DESIGN EVERYTHING AROUND PEOPLE... WHEN WE TALK ABOUT LUXURY, WE DON'T MEAN [illegible] AND MEANINGLESS EXCESS. LUXURY, TO US, IS THE EMOTION THAT OUR CUSTOMERS FEEL WHEN THEY ENGAGE WITH US. IT IS THE SIMPLICITY THAT MAKES FOR BETTER UNDERSTANDING. THE FEELING OF EASE, CONTROL, CALM, COMFORT AND SECURITY – STRENGTH IN EVERY SENSE.

Designed Around You (DAY) is the current global thinking of Volvo. It points out the direction of Volvo's future-bound development and the key word is human. Because every detail of a Volvo car, there is a human thought and skill of a designer, a purchaser, an engineer, a marketer and many more. Designed Around You is about interaction, intimacy and the consideration of a person's every need, which translates to the highest form of luxury in life. This essence of designed around you is translated to every aspect of the Volvo brand - from the vehicles to its stewards in the ownership experience.

### DETAILS DESIGNED AROUND YOU:
## FUNCTIONAL + NATURAL

At Volvo everything is designed around your needs, with great functional value.

Volvo Sensus is a unique [illegible]

The Volvo Sensus for example, is an intuitive command center designed by Volvo. With an integrated thumb scroll on the steering wheel, you have full control of the car and all in-car entertainment, navigation, park assist camera and Bluetooth® communication systems – with both hands on the steering wheel. Convenient, smart and definitely high-tech – never before has total control been so easy to achieve.

[illegible]

### PERFORMANCE DESIGNED AROUND YOU:
## ENGAGING + ENTERTAINING

Every Volvo engine is built to do more with less, [illegible] with plenty of torque, throughout the entire rev range and all at using less fuel.

[illegible]

Advanced engine technology such as a new intake system helps increase torque over a wide speed range and ensures power at high rpm. And with the Dynamic Stability and Traction Control (DSTC) that now features Advanced Stability Control and Corner Traction Control by Torque Vectoring as part of the kit, optimum driving is at the next level. The ASC extended feature makes it possible to identify skidding tendencies at a very early stage, thus improving handling and stability, allowing a more dynamic driving experience.

[illegible]

### SAFETY DESIGNED AROUND YOU:
## INNOVATIVE + INTUITIVE

Volvo thinks about your safety first always. That is why Volvo cars include a host of preventive safety systems to help stop accidents from happening in the first place. Because when it comes to safety, Volvo always expects the unexpected – and nowhere is this more evident than in urban traffic. That's why the advanced low-speed collision avoidance system City Safety comes as standard in every Volvo vehicle*. If a vehicle suddenly brakes in front of you and a collision is imminent, City Safety will intervene and brake automatically to help stop low-speed collisions from happening. Knowing you're safe just adds to the fun of driving.

[illegible]

From making sure you're refreshed and alert, to utilising other preventive safety systems, every element of your Volvo works together to help you avoid accidents.

*City Safety is available locally as standard on the Volvo [illegible]

### LIFESTYLE DESIGNED AROUND YOU:
## LUXURY + SIMPLICITY

[illegible]

Comfort and Luxury are synonymous with Designed Around You. That's why with Volvo you can find your perfect driving position with push-button ease. The driver's seat also incorporates a memory function that stores three complete seat and door mirror settings controlled via a specific remote control – a feature that's appreciated when the car has several drivers.

[illegible]

This is what Volvo Cars is all about. It is contemporary luxury packed with the strength of Volvo engineering ingenuity. With every Volvo you are assured that your car is Designed Around You.

[illegible]

# A great start at The Magnolia Residences

## Business CHIC

By Johnny Litton

The year of the Water Dragon started out with an auspicious note at The Magnolia Residences showroom in New Manila, Quezon City. The [illegible] team of Robinsons Land Corporation (RLC) led by [illegible] sales and marketing [illegible] guests to a [illegible] Chinese New Year celebration [illegible] the advantages of living in this prime development. The attendees enjoyed activities like free feng shui consultations, colorful dragon and lion exhibition, spectacular fireworks display, [illegible] Congratulations to Robinsons Land [illegible] president and chief operating officer Frederick Go for the successful event. The Magnolia Residences is a project of Robinsons Residences, Robinsons Land's residential brand committed to provide the ultimate convenience via its premium condominium developments located in prime locations. # '70s-themed 2012 MYX Music Awards set

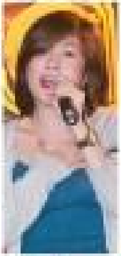
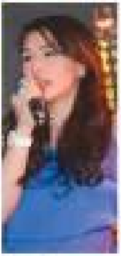
From left: [illegible]



Yeng Constantino

[illegible]



[illegible]

MYX Channel head [illegible]

It's just a day away before the 2012 MYX Music Awards (MMA) night. [illegible]

[illegible]

What makes this year's awards night even special is its [illegible]

The '70s [illegible] That's why MYX Channel head Andre Allan Alvarez [illegible] Original Pilipino Music's own Golden Age.

It can be recalled that the '70s was the Golden Age of OPM. The MYX Music Awards brings back the nostalgia with a roster of offerings that every music lover will enjoy.

He added that every music and artist — be it rock, pop, R&B, etc — has the [illegible] of getting [illegible] nominations.

"As a music channel, MYX takes pride in letting artists [illegible] which network or station they belong to. So long as you're a performer or a musician, MYX welcomes you regardless of network affiliation," Alvarez said.

Meanwhile, voting in the MYX Music Awards 2012 ended last March 9. Votes from viewers comprise 60 percent of the scores, while the remaining 40 percent will come from the [illegible] votes.

For details, log on to www.myx.com and www.facebook.com/MYXPhilippines and follow @myxphilippines on Twitter.

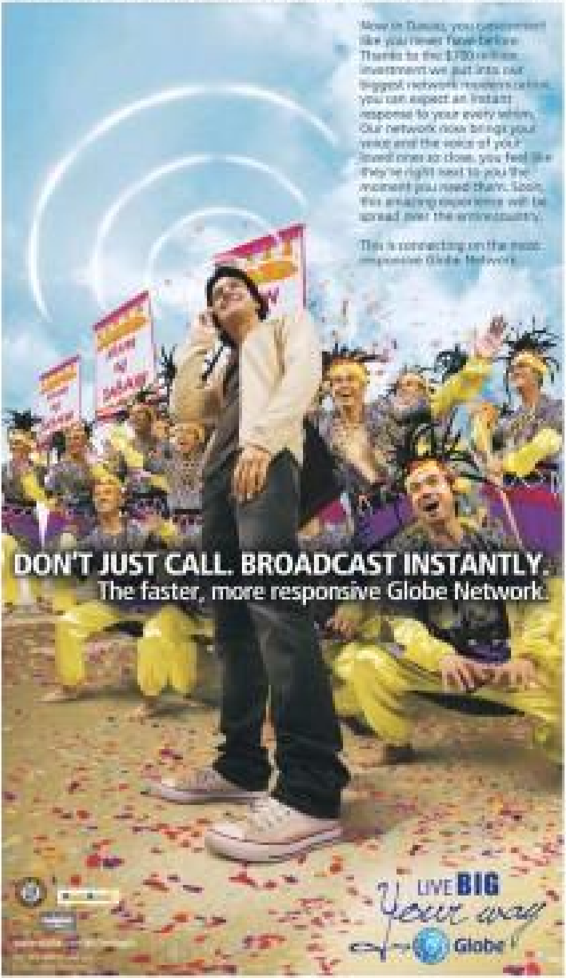
# GLOBE TELECOM BRINGS FUTURE-PROOF NETWORK TO EVERY DAVAOEÑO

As telecommunications and the internet become more pervasive in our lives, it has also led to more demand for bandwidth and the services that go with it. Therefore, it is now imperative for Globe to constantly push its underlying infrastructure capabilities to much higher levels so as to touch both consumers and industries in new and progressive ways.

With that in mind, Globe is making its biggest investment yet with the launch of the US$700 million landmark mobile network modernization program that will radically enhance customer experience, dramatically increase capacity, and effectively manage cost.

The unprecedented undertaking will modernize all layers of the Globe network within the next five years and is expected to set the industry benchmark for the most technologically advanced network in the Philippines. It is expected to bring aggressive growth prospects, savings in capital spending and expenses, as well as operational efficiencies from the synergy among Globe and its partners, Huawei and Alcatel-Lucent. Together bound by vision and resolve, the three companies are committed to incrementally deliver a superior customer experience for the benefit of the consuming public.



Now in Davao, you can experience like you never have before. Thanks to the $700 million investment we put into our biggest network modernization, you can expect an instant response to your every whim. Our network now brings your voice and the voice of your loved ones so close, you feel like they're right next to you the moment you need them. Soon, this amazing experience will be spread over the entire country.

This is connecting on the most responsive Globe Network.

DON'T JUST CALL. BROADCAST INSTANTLY.
The faster, more responsive Globe Network.
LIVE BIG
Your way
Globe

Pilot implementation of the network change-out was conducted in Davao, being a key market and focus area for Globe. This gives every Davaoeño an opportunity to experience an enhanced Globe network with fast call connections, on-time delivery of text messages, and reduced incidence of dropped calls even at peak hours and traffic-heavy occasions.

At a higher level, Globe network modernization program also serves to broaden the telecommunications horizon of the Philippines as its corollary infrastructure expansion and service innovation stands to attract investment and business. Globe is effectively raising the bar of technology and service in the industry to make it at par with the world's most advanced telecom communities and practices.

The Globe network and IT transformation program is an ambitious and yet necessary undertaking which will provide the platform that will make Globe even more competitive in the fast-moving market.

The multi-million dollar project will allow all Globe subscribers to have a bigger, better network to enjoy Globe services their way. Future-proof telecommunications making great things possible for every Filipino - this is the promise of Globe Telecom.

[illegible]

[illegible]

# CREATING FUTURE LEADERS THE GLOBE WAY:

## Deepening the talent bench in a challenger company

By [illegible]

[illegible]

[illegible]

[illegible]

> The Globe Way also highlights the importance of people in our organization. We are firm believers that people make the difference [illegible] another brand. Every person is an essential part of the group. Everyone should be responsible, accountable and integral to the team. Globe stands for service quality, product integrity, and customer satisfaction. But that philosophy must be understood and practiced by everyone, including [illegible], and not just those in sales or marketing.

BAIPHIL

### BAIPHIL celebrates its past [illegible] by doing more for its members, the community, and the international banking industry

[illegible]

[illegible]

[illegible]

# Taking big steps for a brighter...

From page L-1

BAIPHIL OFFICERS & DIRECTORS
Fiscal Year 2011-2012

COMMITTEE CHAIRPERSONS & ADVISORS FY 2011-2012

benefit from this exciting new e-com service from BAIPHIL.

With one of its thrusts of being able to proactively address their members' training needs and information requirements, Bellinda Santos and her team took it upon themselves to come up with refreshing, informative, and more importantly, relevant sessions that are well complemented by a number of other activities that the members will surely appreciate. The keynote speaker for the General Membership Meeting (GMM) of this year's celebration of BAIPHIL Week is Atty. Juan de Zuñiga Jr., Deputy Governor and General Counsel of the Bangko Sentral ng Pilipinas (BSP), who will discuss "Trust and Confidence: The Foundation of Deposit Secrecy", a very timely topic and something that is very important for the banking industry.

The GMM/Gala will also feature the soft launch of the newly-redesigned book "[illegible] Passion for Continue to Take Root", documenting the seven decades of BAIPHIL, along with the highlights of the history of the banking system. The other features of the program is the ceremonial turnover of the Institute's donation from its [illegible] program proceeds, to the Villa [illegible] Mater Good Shepherd Recovery Center in Cebu.

The BAIPHIL Week seminars and [illegible] update sessions for the rest of the week include "Retail Banking Solutions" in partnership with the UK Trade and Investment Office (UKTI), "Operational Risk Management", "Managing Consumer Credit Products and Retail Risk Management" in collaboration with the Bankers Association of the Philippines (BAP) and the Philippine Association of Collegiate Schools of Business (PACSB), "Financial Education Program", a joint project with the Bangko Sentral ng Pilipinas (BSP); the "Consumer Credit Cycle seminar", and capped by the "Corporate Governance Update" course with Dr. Jesus Estanislao, ICD Chairman and Jesus Cortes Jr., International Banker, in the first joint offering of two BSP accredited organizations – Bankers Institute of the Philippines (BAIPHIL) and The Institute of Corporate Directors (ICD).

Bellinda Santos shares that they've also cooked up a special post-BAIPHIL Week activity aptly named "Master Chef Banker", a fellowship activity/culinary competition which is open to all BAIPHIL members. Given all the hard work that the men and women of the Institute put into delivering the best possible banking service for the country, Bellinda Santos finds it apt that while they are also focused on being the best in the industry they are still able to make time for some much needed diversion.

**TAKING THE NEXT STEP, HARNESSING STRENGTHS**

Now moving into the Institute's exciting [illegible] year in spite of [illegible] being in competition [illegible] BAIPHIL, Bellinda Santos and her team have managed to sail through smoothly, pursuing the abundant projects that she and the different BAIPHIL committees took on.

When asked about the successes that the Institute has gained in 2011, Bellinda Santos proudly reports that each and every committee has been a major factor in the significant growth and accomplishments in the first six months of the new year term. Among others, she mentioned the BAIPHIL Education and Training Institute (BETI) and the Credit Committee held its seminars on various topics and its Corporate Governance Course attended by [illegible] participants, and have already exceeded the combined target of the committee for the whole year. In addition, the [illegible] Credit and Appraisal Study Forum also continued to review and enhance the existing Standard Appraisal Agreement (SAA) and the Real Property Database System (RPDS). BETI has also been successful in securing approval from the Commission on Higher Education (CHED) for the accreditation of its seminar courses for equivalent units towards a masteral course.

The BAIPHIL e-Learn facility, an alternative to the classroom learning channel, which will be an exhibit and demo today and will be launched soon, is a joint project of BETI and the Technology Management Committee (TMC). Keeping in step with the times, the Institute deemed it necessary to offer the e-Learn, which is a facility that makes use of cloud computing technology, making BAIPHIL easily accessible to member institutions, individual members, trainers, training participants, and guests. Training courses, materials, and learning ebooks are readily available with a standard internet browser. [illegible] makes it easy to navigate the site.

Another well-appreciated BAIPHIL information service regularly made available to its members is the daily news feed, a digest of relevant business news, which is complete and easy to read, known as BAIPHIL Market Watch (BMW), and the bi-monthly news feed on Legal and Regulatory Updates (Leg/Reg). Both services, initiatives of the Research Committee, have been receiving very good feedback from BAIPHIL members.

The monthly General Membership Meeting (GMM) provides a venue for continuous learning of relevant
